PRANAV MUKUND DANTU

has successfully completed the online, non-credit Specialization

Exam Prep MLS-C01: AWS Certified Specialty Machine Learning

Congratulations! By successfully completing the AWS Certified Machine Learning Specialty Certification, you have demonstrated your proficiency in the fundamental principles of Machine Learning and your ability to operate various AWS services necessary for building, deploying, and maintaining Machine Learning models. This certification validates your expertise in designing, implementing, & optimizing Machine Learning solutions using AWS tools and technologies such as Amazon SageMaker, Amazon Rekognition, Amazon Comprehend, and Amazon Lex. . By earning this certification, you have positioned yourself as a skilled Machine Learning professional who can build reliable, and cost-effective solution on the AWS Platform.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
